MONTHLY

RAINFALL

0F

INDIA

FOR

1934

Published by the various Provincial Governments

AND ISSUED BY THE

INDIA METEOROLOGICAL DEPARTMENT

DELHI: MANAGER OF PUBLICATIONS
1936

Price Rs. 16-9-0.

The district averages of actual and normal rainfall published in the monthly and annual rainfall tables were not strictly comparable with each other prior to 1928, as the normal averages were based only upon the number of stations for which normals had been determined while the actual averages were based on the full number of stations in the district.

To make the two comparable, both the district averages have been based, from 1928 onwards, upon the stations for which normals are available.

C. W. B. NORMAND

METEOROLOGICAL OFFICE,

POONA;

The 23rd December 1935.

Director-General of Observatorie
